Harry R. Rogers started this funeral business in 1914. Carlton F. Kennedy purchased the business in 1965 and changed the name to Rogers and Kennedy Funeral Home presently known as Kennedy Funeral Home.

A tradition of service for over 97 years, Kennedy Funeral Home is a familiar business involved in Greene, NY and the surrounding communities. We have built our name on a foundation of honesty, trust and the desire to service families the way we would like to be served. Change is an ongoing happening. We are knowledgeable of the unique funeral customs for all faiths. By adding personal mementos of the deceased we can create a personalized funeral for loved ones.

Our facilities are homelike. Our family rooms - where families can greet relatives and friends who come to pay respect - are large and bright. We have smaller rooms ideal for private conversations, moments of reflection or for children to unwind.

Our casket selection includes a variety of hardwoods - mahogany, maple, oak, cherry, pine or pecan - and 16, 18 or 20 gauge steel. The interior casket comes in a selection of colors and made of velvet or crepe. If the family wishes, a commemorative panel located in the lid of the casket can be added. This panel provides a personal way to highlight a loved one's interests, hobbies, organizational emblems or favorite past times. A family relationship panel - Mother, Mom, Father or Dad - can also be purchased. A casket with a memory shelf to display special keepsakes is available. If needed an oversized casket can be purchased.

Cremation is an alternative to a traditional funeral. During the cremation process intense heat is used to reduce human remains into small bone fragments. This takes place in a chamber known as a cremation retort. After cremation these bone fragments are further reduced to a fine powdery form, known as the cremated remains or ashes. Most Christian denominations do not object to cremations, however, traditional Jewish and Islamic law prohibits cremations as a form of disposing. Since 1963 Roman Catholic rules regarding cremation have been liberalized. They now allow a funeral mass to be said before cremation if the body is present in the church. They also allow a mass after cremation with or without the cremated remains in the church. The next of kin has legal authority to decide what to do with the ashes. The ashes may be removed from the crematory's container and placed in a decorative urn. This urn may be entered in a grave in a cemetery or a special building. Families may choose to divide the cremations among family members. Some type of a rigid container for the ashes may be necessary due to sanitary reasons. We have a large variety of urns for you to choose from. Or a family may spread or scatter the remains in a garden, lake or a special place that has meaning to their loved one.
