**USATF Certificate**

NY13044JG

Effective: 04/29/2013  
through 12/31/2023

Start: two nails were driven into the road between the fourth and fifth iron post (counting from the first telephone pole) on the section of Ball Flats Road that is parallel with N. Chenango Street. The distance between outer edges of the posts is 18 feet 1 inch; measure 12 feet 4 inches from fourth post toward fifth, then 13 inches perpendicular, into road

The course starts in the Ball Flats park, turns right up Ball Flats Road, climbs a short hill, turns right on N. Chenango Street and heads north. Turn left on Cutler Road, turn left on N. Canal Street and head south, crossing Genessee Street and continuing on S. Canal Street. (S. Canal and S. Chenango come to a point; it will be taped so runners can't cut the corner.) Turn left onto S. Chenango Street and head north. Cross Genessee Street and continue on what is now N. Chenango Street. Turn left on Cutler a second time, turn left on N. Canal and head south. Turn left on Jackson Street, turn left on N. Chenango, turn right on Ball Flats Road, finish line is at the bottom of the hill.

**Mile splits:**

- 1 mile is on S. Canal Street, between the Library (west side) and a brick building (east side) on the corner of S. Canal and Genessee. Specifically, it lines up with the square, metal duct work that comes out of the brick building and the large, green electrical service box on the library's lawn.
- 2 mile is on N. Chenango Street, between entrance to Citizens Bank (east side) and Mimi's Restaurant (west side). There is a utility pipe (gas? Water?) coming up out of the ground outside the restaurant, and the split is in the seam in the curb that is closest to that pipe.
- 3 mile is at the western edge of the driveway for 2 Jackson Street, in a seam in the curb. On the opposite side of the street is a barn/garage.
